

Cape Charles Gazette Special Edition

Publication Date: August 23, 2016

We hope that you will enjoy reading the Cape Charles Gazette which is the electronic newsletter published from time to time by the Town Manager on behalf of the municipal government of the Town of Cape Charles. The Gazette provides a variety of information that we believe will be useful to the citizens and businesses of Cape Charles as well as those who plan to travel to Cape Charles or have any interest in our Town or the Town's government. The Gazette provides information on actions being undertaken or being considered by the Town government, upcoming activities in the Town, important public safety and security issues and emergency announcements.

We welcome your responses which may be sent to gazette@capecharles.org, or by regular mail to 2 Plum Street, Cape Charles, VA 23310.

We also encourage you to visit the Town's website at www.capecharles.org where you will find up-to-date information about the operation of the Town government.

If you enjoy receiving the Cape Charles Gazette, please go to www.capecharles.org to sign up for e-Notifications. You can also sign up to get regular updates on Agendas & Minutes, Alerts, Bids, Calendar Items, Job Postings and other News & Information. You control the information you receive and can cancel the notifications at any time.

DREDGING AND BEACH SAND PLACEMENT BEGINS

The quantity of dredge material (sand) being placed on the beach has been decreased to approximately 30,000 cubic yards, with the progression of work for beach placement beginning at the north end of the beach and proceeding southward (about 600 feet) until the maximum placement volume of 30,000 cubic yards is achieved. This process will take six to ten days to complete.

Initially, residents and visitors will notice that the sand fill will not look quite as white as the existing beach sand. The difference in color is because the sand fill is derived from nearby channel dredging operations and, unlike the existing beach sand, has not had the benefit of sun, rain and wind exposure over time. Within a short period of time, however, the sand fill will bleach out and begin matching the color of the existing beach sand. In addition, the sand fill will likely have an organic odor at the time of initial placement. This odor should dissipate within a few weeks.

The Town of Cape Charles appreciates your patience and understanding throughout this entire process.

We welcome your feedback. Please send your comments to gazette@capecharles.org.
